

**THE FIRST NAME IN
TITANIUM TOOLS®**

2006 Product Catalog

Stiletto has been the "Standard of the West" in professional quality tools and hardware since the California Gold Rush in 1849. Our trademark stands for our drive for innovation in occupational technologies, highest quality of manufacturing, and a total commitment to customer service.

Today we are the leader in the Titanium ergonomic striking tools and our values are the same. Our tools were developed to alleviate pain and reduce fatigue from the adverse effects and health risks associated with prolonged daily hand nailing.

We guarantee that if you try one of our Titanium hammers for a minimum of two weeks, you will find that our tools have the nail driving power you want, without the pain and familiar fatigue that you don't need...

Every hammer we ship has a hang tag with our popular "My Tool is a Stiletto" sticker that you can peel off for your truck, bumper, tool-box, or hardhat...

The back of the tag has very important product information about our warranty. Titanium hammers, just like Steel tools, should be used with common unhardened nails only.

Titanium hammers should not be struck against hardened Steel objects, and damage to the tool resulting from use with nail pullers, formstakes, shotpins, etc., will void the warranty. We do not warranty normal wear and tear to the face and claws.

We recommend you take good care of the tool that will take good care of your arm.

 Lighter • 10X Less Shock • Powerful

STILETTO®

The First Name in Titanium Tools®

About Hickory handles...

Hickory wood's natural ability to reduce the damaging effects from recoil shock-waves makes it the best natural material choice for a hammer handle, but it does not have the material strength to pry with.

We hand inspect every handle for flaws and imperfections, we have the best fit and finish in the industry, and we do all we can to insure we ship you a high quality American Hickory handle.

So remember, ease up on that handle when you're fighting with that stubborn nail, or you're just going to break it.

Or just get one of our TiBones and forget about it...

All Stiletto Tools have a 30 day Money-back Guarantee, and are warranted against defects in materials and workmanship for one year from date of purchase. Call Stiletto Customer Service @ (800) 987-1849.
